

GUIDE

CHART CONFLICTS

Step 1

The red crosses next to a Drivers name means that there are chart conflicts. To resolve them, you will need to go into Activity for the driver and click on Evaluation Conflicts (latest on...) X above the calendar. It will then take you to that month, where you will see a red dot on the day(s) in question.

Click on the day and a pop will appear for you to click on Detail view then Modify.

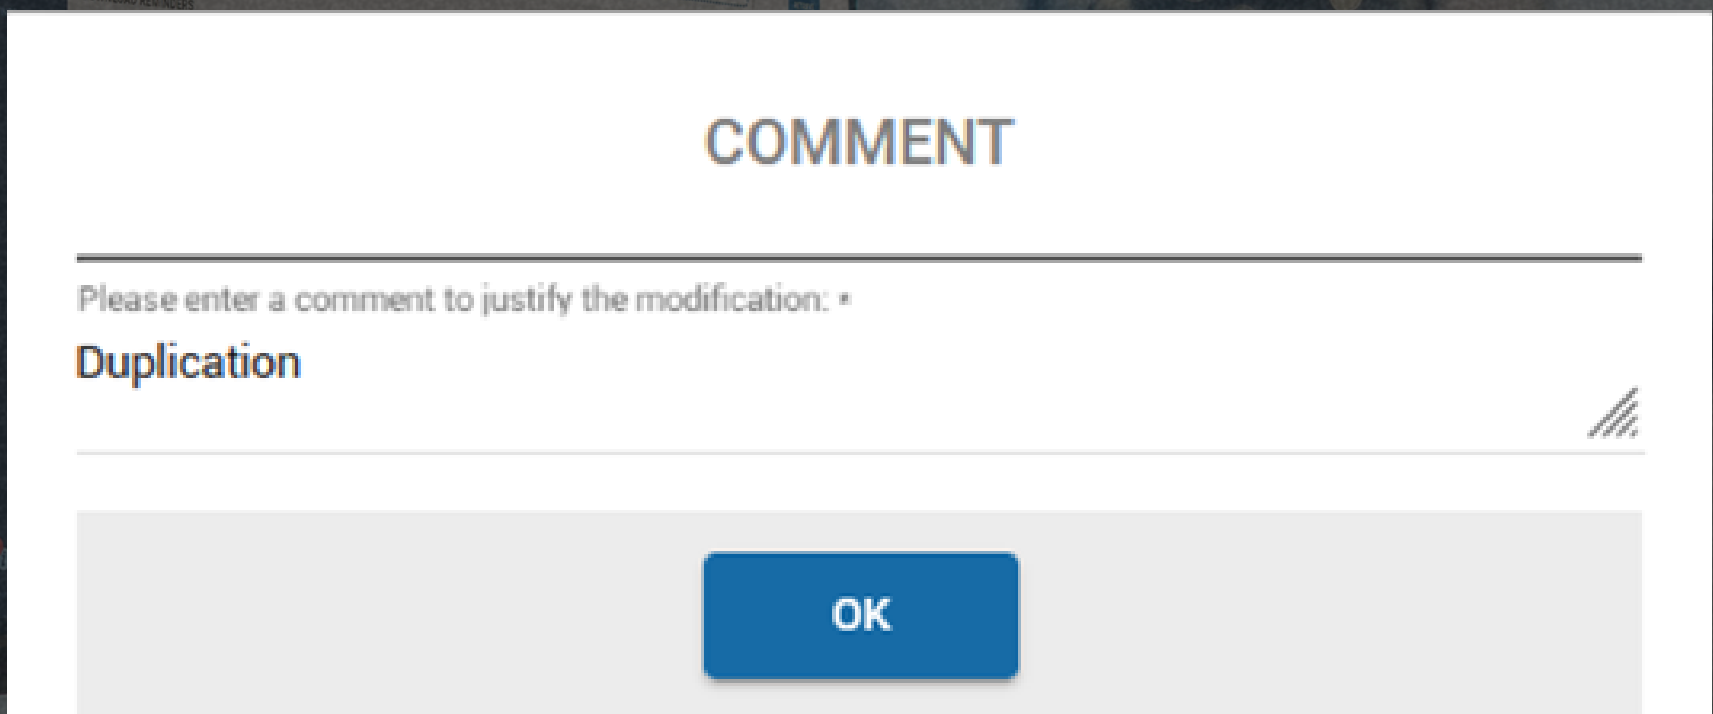

Step 2

Click on the bar chart, that you want to delete, so that the VRN comes up as Unknown or Manual Entry in the top left hand corner or if it is a duplication, you should click on the top chart to highlight it and select Delete Block.

Step 3

Confirm you wish to delete the selected activity block, followed by Save and in the Comment box that pops up, type in “Duplication” and then click OK.

COMMENT

Please enter a comment to justify the modification: •

Duplication

OK
