GUIDE

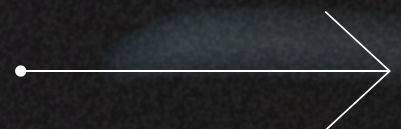

VDO FLEET DMM RAW DATA RETRIEVAL

To retrieve the raw data for either Vehicles or Drivers, click on the Download tab in Tachograph Management. You will then see a retrieve button in the top right corner, click on it to see following screen.

Step 1

You can then select either Drivers [DC] or Vehicles [VU] along with the date range.

You can now select either one/individual DC or VU by clicking on the > button or all by clicking on the >> button.

The DC[s] or VU[s] that you want to retrieve data for should be in the right hand column, ready for you to then click on Next. Ignore the Clean Archive options as they are only if you need to delete the files off of VDO Fleet.
